PROFESSIONAL SUMMARY

Enterprise software engineering leader with 15+ years of experience designing, delivering, and modernizing business-critical systems across utilities, ERP, financial analytics, OCR, reporting, and operational management domains. Strong background in .NET, ASP.NET Core, React, Angular, SQL Server, REST APIs, microservices, Azure/AWS, SCADA integration, GIS integration, dashboards, and cross-functional technical leadership. Two self-built systems — a multi-tenant dental practice management SaaS and an AI-powered job-search platform — are running in production, designed, built, and operated end to end.

CORE COMPETENCIES

Languages & Frameworks: C# · ASP.NET Core · ASP.NET · Blazor Server · MVC · ADO.NET · WCF · Node.js · TypeScript · JavaScript/ES6 · HTML5 · CSS3

Frontend: React.js · Next.js · Angular · Blazor · Tailwind CSS · TanStack Query · Material-UI · Bootstrap · jQuery

Databases & ORM: PostgreSQL · MS SQL Server · Oracle · MySQL · MongoDB · Entity Framework Core · Entity Framework · Dapper · NHibernate

Messaging & Real-Time: RabbitMQ · SignalR · Event-Driven Architecture · Background Workers · WebSockets

Architecture & Patterns: Clean Architecture · Multi-Tenant SaaS · Microservices · RESTful API · Web API · SOAP · Repository · Factory · Singleton

Testing & Quality: xUnit · NUnit · MSTest · Playwright · Vitest · React Testing Library · Postman · Fiddler

DevOps & Infrastructure: Docker · Docker Compose · GitHub Actions · Azure DevOps · Jenkins · nginx · Linux VPS Operations · Let's Encrypt / TLS · Git · TFS · SVN · NPM · Webpack

Cloud & Services: Azure Services · AWS Lambda · Serverless Architecture · Self-Hosted Production Deployment

Leadership & Delivery: Project Planning · Team Leadership · Client Communication · Certified ScrumMaster (CSM)

PROFESSIONAL EXPERIENCE

Solution Delivery Specialist — Today's Tech

April 2025 – Present

- Lead end-to-end solution delivery from discovery and estimation through architecture alignment, implementation, quality gates, and production release.
- Translate business goals into technical roadmaps, milestones, release plans, and measurable delivery outcomes.
- Coordinate product, engineering, QA, and operations teams to keep enterprise delivery predictable and transparent.
- Own sprint planning, backlog prioritization, dependency management, delivery risks, and release readiness.
- Establish delivery governance through status reporting, stakeholder demos, risk tracking, and proactive mitigation.

- Support continuous improvement across delivery process, team collaboration, engineering quality, and operational handoff.

Technical Project Manager — BJIT LTD

October 2016 – March 2025

- Led enterprise software delivery across utility, reporting, analytics, content-creation, and operational management domains.
- Led a 30+ member cross-functional team of developers and QA engineers across planning, implementation, review, and release.
- Served as project lead for the CWASA Digital Ecosystem covering billing, NRW analysis, management dashboards, predictive analytics, SCADA integration, GIS integration, and reporting workflows.
- Architected and delivered systems supporting 100k+ users, 1M+ monthly transactions, and a 65% reduction in manual reporting effort.
- Coordinated with clients and business stakeholders to convert operational requirements into roadmaps, technical scope, and release plans.
- Conducted architecture reviews, code reviews, implementation guidance, dependency management, and production-readiness planning.
- Designed and developed PDF creation software, educator content tools, and bridge inspection management systems.

Software Engineer — Intelligent Image Management Inc.

June 2015 – October 2016

- Implemented OCR and intelligent data-capture solutions using the Tesseract OCR engine.
- Developed image-processing and extraction workflows for scanned documents and image-based inputs.
- Improved structured data capture accuracy and reduced friction in document digitization workflows.

Software Engineer — Simplexhub Ltd

August 2013 – June 2015

- Developed e-commerce platforms with integrated payment gateways and secure transaction workflows.
- Created medical service management solutions for structured operational processes.
- Implemented backend services, web interfaces, and data workflows for business-facing applications.

Software Engineer — LEADS Corporation LTD

July 2012 – August 2013

- Developed financial analytics tools for stock-market-oriented data analysis.
- Implemented real-time data-processing workflows for time-sensitive financial signals.
- Created predictive logic and analytical features for market-trend decision support.

Lab Technical Officer — BRAC University

January 2012 – July 2012

- Supported academic programming labs and workshops.
- Maintained network infrastructure and server systems.
- Provided technical guidance to students and faculty.

Programmer (Dot Net) — CACTS LTD

April 2010 – December 2011

- Developed core ERP modules from scratch across inventory, HR, payroll, and administrative workflows.

- Implemented relational database-backed business processes for enterprise operations.
- Created reporting-oriented modules that improved internal workflow visibility and process control.

SELECTED PROJECTS

DentalPMS — <https://demo.dentflowbd.com/login>

Multi-tenant SaaS practice management system for dental clinics. Clean Architecture on ASP.NET Core and Blazor Server, with tenant isolation enforced by EF Core global query filters. Designed, built, deployed, and operated in production.

ASP.NET Core 8 · Blazor Server · PostgreSQL · EF Core · Docker · nginx

AI Job-Search Copilot — <https://jobcopilot.dentflowbd.com>

Event-driven résumé-to-job matching pipeline. An ASP.NET Core API queues work to RabbitMQ, a background worker calls an AI model and persists results, and completions are pushed back to the browser over SignalR. Containerized, with CI/CD deploying on push.

ASP.NET Core 8 · RabbitMQ · SignalR · PostgreSQL · React · Docker · GitHub Actions

EDUCATION

Bachelor of Science in Computer Science — BRAC University

Higher Secondary Certificate (HSC) — Rangpur Govt. College

Secondary School Certificate (SSC) — Cantonment Public School & College, Rangpur

CERTIFICATIONS

Certified ScrumMaster® (CSM) — Scrum Alliance · Dec 2023 – Dec 2025

LANGUAGES

Bengali (Native) · English (Fluent)
